## macos high sierra asus maxium VI

**Beitrag von „patricia2626“ vom 4. April 2018, 21:38**

i got a intel i7 4790k haswell

samsung 940 ssd

660 gtx 2vram

asus maximum hero VI

it hard as i use transmac to format and restore dmg and use viertualbox to efi folder and edit more.

i am reading german becuase google to english
