[@Mocca55](#)

yes you are right but don't forget the connectors patch. without that this will not work.

i have not so much ideas but maybe its possible with dual graphic and connectors patch ? a la macbook pro end 2011 and then you give him another datas in connectors patch and Vram ? its an idea but i don't know if it possible??

in think the pro's here can help you a lot more like me. i have reading a much time to check it out that i need the connectors patch and more.
