

Erledigt Hackintosh Installation

Beitrag von „bbmatias3“ vom 9. Mai 2018, 01:04

this is if you boot with clover

boot with inject EDID And inject nvidia webdrivers then boot and install web drivers.
just tested this method and it working just boot again with inject EDID And inject nvidia webdrivers

once you install web driver if you need display audio here are some kext they go in library and extensions then use kext utility

if you dont need displayport audio remove applALC

here is my drivers64UEFI folder i use
VoodooHda will give you hdmi audio

good luck
