are you installing mac os or installing web drivers ??

my method didnt work for you ?? have you updated to the latest clover?

so what's the version of mac os you using?

did you try a different hard drive

you might want to try smbios 14.2 as well.

in the lastest version of mac os

i have msi z270 board

i7 7700k

gtx 1080ti

similar specs

i attached my kext i use for clover and drivers64UEFI

these are my [bios settings](#)

so enable xhci usb handoff
