Das heisst die 560 ist offiziell raus:

"It's also worth noting that Apple has eliminated support for some cards that were supported during the beta, such as the AMD RX 560."

VEGA 56, 64 und RX 570, RX 580, WX 7100 sind empfohlen:

"Apple recommends AMD Polaris, Vega 56, and Vega 64 graphics cards.

Sapphire Vega 56 and the XFX Vega 56.

For the AMD Radeon RX 570, RX 580, and Radeon Pro WX 7100 cards Sapphire Pulse series and the AMD WX."
