Sierra auf einem Lenovo E460

Beitrag von „frknustn“ vom 20. Mai 2018, 20:13

hello guys. I have e460 too. I have some troubles. When wake up my high sierra pc from sleep, it restart and it cant start mac os x. When I press 5 second to power button it shutdown. And when i press power button again i can start my mac os x. I applied so patch to my dsdt. What should i do ?
