## **TINU - Der einfachste Weg zum USB-Installer**

**Beitrag von „ITzTravellInTime“ vom 6. Juni 2018, 01:31**

i am working on a patch rigth now, i just have to chaange the terminal command for "createinstallmedia" and the output detection system for it, the error was generated because of an unknown output from "createinstallmedia", but i am testing the fixed version rigth now to see if it works, i am also doing tests on macOS 10.14 as well
