

Erledigt

Verzweifelt (bekomme GA-Z77-DS3H i7-3770 nicht zum laufen)

Beitrag von „andi“ vom 25. Dezember 2012, 22:23

Hallo,

bin erst jetzt wieder zu weiteren Versuchen gekommen.

Habe mir noch andere USB-Sticks zum booten erstellt, aber alles der gleiche Effekt.

Anbei der Screenshot wenn ich mit -f -v boote:

```
BSD root: disk0s2, major 1, minor 2
Kernel is LP64
com.apple.launchd | com.apple.launchd
ITI has started up. ***
com.apple.launchd | com.apple.launchd
root: will log to /dev/console. ***
com.apple.launchd | com.apple.launchd
n logging is enabled. ***
** /dev/disk0s2 (NO WRITE)
** Root file system
Executing fsck_hfs (version: diskdev_cmds-557.3-1).
