Hi .

you tell right . i use ssdt-9 with \_PS3 but not to do any change to power using by gtx .  
but but but your work so nice and temp now 2 C or 5 C lower then past and power using  
600MW lower than past and HDMI WORKING with out nvidiaweb it's so nice . i love your work .  
i'm not on level for says thank you , you use your time for me , thank you .

[@NoirOSX](#) thank you .
