[gelöst] Acer Spin 5: Finetuning !

Beitrag von „MrVanosh“ vom 10. August 2018, 16:26

This version is not test is full but to get no limitations you need license. First write you need a driver and when they will send it to you give them diagnostics zip and ask they can provide free license cuz you are student example.

Edit: I can add this license is assigned to system uuid so if they won't give you license i can give you this system uuid but first i need to research if it wont have bad consequences.
