## **M.2 key M to M.2 key A(+E) for WIFI + BT adapter**

**Beitrag von „influenist“ vom 14. August 2018, 10:54**

Hi guys, a fast update. Currently a lot is going on in my private life (in a good way), therefore I haven't found much time to update my github and you on this forum.

Regarding this matter. The past two months I have been running MacOS with internal wifi. I'll update you asap on this matter when I find more time to post more in-dept info on the solution.
