## **macOS Mojave Ozmosis BETA – OZ167X-XMAX**

**Beitrag von „kuckkuck“ vom 15. August 2018, 13:15**

[@diy2018](#)

1. Please don't quote everything, just write [@kuckkuck](#) to reply
2. Please try to write in English
3. About your problem: Deactivate the HD4600 in your BIOS. Then try to Boot Mojave. Let's see if that works...
