macOS Mojave Ozmosis BETA – OZ167X-XMAX

Beitrag von „nrchandar0100“ vom 19. August 2018, 15:51

Hi,

I do not have DSDtT and i do not have default.plist in ozm folder. Another thing is in mojave i have serious graphics display problem. say for example the google web browser is struggling to start and in youtube the files are overlaped. i have installed only cuda drivers and i do not have web drivers as not been released for mojave.

Thanks and Regards
