macOS Mojave Ozmosis BETA – OZ167X-XMAX

Beitrag von „kuckkuck“ vom 25. August 2018, 18:51

[Zitat von dcfgfs](#)

Because I am trying to generate a BIOS with Ozmosis and plan to install MacOS high Sierra 10.13.6

You should be able to use Ozmosis on your Motherboard...

But you don't need to use XMAX, you can just use Oz167X-CPWN (extract it from a ROM from the download section)
