Black screen with grey square when boot with installer. Asus Maximus VII Hero

Beitrag von „kuckkuck“ vom 30. August 2018, 11:58

Your ROM has a locked MSR register. I did some changes to your ROM:

- Unlocked the MSR register
- Removed all Kexts but FakeSMC
- Replaced the modules that had bad signatures (now you get 0 errors)
- Added two more modules for better APFS support

You can try this ROM:
