Sierra auf einem Lenovo E460

Beitrag von „Harper Lewis“ vom 10. September 2018, 14:02

The trackpad (ALPS) works fine with a special version of VoodePS2Controller. Donot expect it to be as good as the devices thr real MacBooks have built in, though.

Regarding USB, sounds like an issue with the flash drive you are using as I have never experienced this with my E460.

I will upload my EFI-folder later this day. What BIOS-Version are you on?
