## Sierra auf einem Lenovo E460

Beitrag von „Harper Lewis“ vom 10. September 2018, 14:46

I think you can disable the R7 via ACPI-patching but I donot have any experience with this as my laptop does not have a dedicated GPU built in. My E460 is on an earlier UEFI-Version so you should patch the ACPI-files (DSDT) yourself instead of using mine.
