Sierra auf einem Lenovo E460

Beitrag von „ramzha“ vom 15. September 2018, 00:35

Hi there again, Had time to reinstall OS to high sierra. I got these ones up:
Graphics, LAN, Touchpad (no gestures tho, the one u advised me doesnt work, i guess its because i didnt make out my battery yet)

[@Harper Lewis](#) Hi I Patched my DDST the way u patched it (but i didnt apply haswell brightness fix) and i still cant get up sound (id prefer not to use VoodooHD cuz sound is awful, is there any way?) also brightness dont work & battery. Can anyone help me with my DSDT and any other advices? thank you!
