Mojave on GA-Z77N-WIFI

Beitrag von „crazycreator“ vom 1. Oktober 2018, 22:09

for the correct ram, try this in terminal:

Code

1. `sudo nvram 1F8E0C02-58A9-4E34-AE22-2B63745FA101:SkipSmbusSpdScan=%01`

The HD5770 is running on Mojave? Wow ... My old HD5770 make a wild disco light.
