

Anleitung: High Sierra auf HP Elitebook 8460p mit Intel Core i7-2620M und ATI HD 6470M

Beitrag von „gamal“ vom 24. Oktober 2018, 18:37

Hi

Please help with the AMD Radeon HD 6470M Series

The computer information is in the attached pictures

I deeply apologize for not being fluent in English

The computer works very well on the captain system but I can not define the AMD Radeon HD 6470M Series card

On the Seirra system

Please help me as I search a lot about solving this problem without interest

I have been able to use the EFI folder which is on the first of this topic but unfortunately everything works except the AMD Radeon HD 6470M Series as it comes with only 3 MB memory

If you want an EFI file that works as a capable captain
