

Anleitung: High Sierra auf HP Elitebook 8460p mit Intel Core i7-2620M und ATI HD 6470M

Beitrag von „anonymous_writer“ vom 5. November 2018, 10:30

Hello [gamal](#) ,

Please look at the file [config i5 2520m mit der HD6470M.zip](#) in post 1. [@OptimusPeter73](#) has found another way to patch the connector. He had deleted the EDID entry and instead of this he use ATICConnectorsData and ATICConnectorsPatch.

I can not do more for you because I do not have the laptop anymore.

Good Hack.
