

InsanelyRepairPermission

Beitrag von „derHackfan“ vom 7. November 2018, 21:59

Im Anhang findet ihr das Tool in Version v.1.2 um `kexts permissions` zu reparieren.

It repair kexts permission for:

- **/Extra/KPKexts** (since v1.1)
- **/Extra/Extensions**
- **/System/Library/Extensions**
- **/Library/Extensions**
- v1.2: code improvements for Sierra from Pandora's Box
