

XiaoMI 12,5 Zoll (m3 6Y30|4GB RAM) mit Mojave

Beitrag von „kyall“ vom 4. Dezember 2018, 04:04

hi apologies for English as it is my only language!

When I try to boot with this EFI, I have nothing on the screen. Backlight of the keyboard is working, but it does not show anything.

Suggestions for what I might be doing wrong?
