## Broadcom BCM94356ZAE NGFF

Beitrag von „j4v3l“ vom 4. Dezember 2018, 08:49

Motherboard: z390 Maximus XI Hero CE

So my motherboard has the wireless-ac **9560** I wondering if the **BCM94352Z** would work or the CNvi would affect it. Or I can use the **Bcm94360cs** or BCM94356ZAE

with an adapter?
