

Intel NUC - Bean Canyon - NUC8i7BEH

Beitrag von „sarkdavidson“ vom 23. Dezember 2018, 15:47

Hey guys, can anyone share an EFI folder which is for the installation of Mojave? I am using the NUC8i7BEH with 16GB*1 and Crucial 1000G MX500 installed. I tried rehabman's EFI, but no success. I am so confused.
