AORUS PRO Z390, i9 9900K, Radeon Vega56 - Reboot nach dem erstem Login nach der Installation

Beitrag von „Beppo68“ vom 13. Januar 2019, 11:28

that are great news... the EFI folder, you've sent yesterday was not containing the EmuVariableUefi.

Thanks for you configuration, I will go and test it.

Have you used "install RC-Scripts during Clover installation?"
