AORUS PRO Z390, i9 9900K, Radeon Vega56 - Reboot nach dem erstem Login nach der Installation

Beitrag von „nhasan77“ vom 13. Januar 2019, 11:37

Okay then that was a mistake. Thanks for pointing it out.

No I did not use any RC scripts. I used an already preconfigured configuration from somebody who has the same components as me. All the best to you.
