## **macOS Mojave + Ozmosis ASUS MAXIMUS VII RANGER - ready**

**Beitrag von „linvydas“ vom 14. Januar 2019, 16:07**

Thank you for your work modifying bios, but looks like there is some bug or maybe ASUS included some sort of new protection against modified bios, because PC posts only when there are no hard drive or flash drive attached. Maybe you could modify an older version of Bios:

<https://dlcdnets.asus.com/pub/...-VII-RANGER-ASUS-3003.zip>

- 1) Asus
- 2) MAXIMUS VII RANGER (rev. 1.02)
- 3) Chipset Z97
- 4) Bios version 3003
- 5) Bios link: <https://dlcdnets.asus.com/pub/...-VII-RANGER-ASUS-3003.zip>
- 6) OS: MacOS Mojave
