macOS Mojave Ozmosis BETA – OZ167X-XMAX

Beitrag von „longhui“ vom 4. Februar 2019, 07:37

Hello [kuckkuck](#)

Mojave 10.14.4 (18E174f) update still no native GVA support for AMD RX4XX/5XX, need dummy141 kext to enable AMD GVA support.

Clover is working fine, but OZMOSIS not available.. Can you help me with this problem 😊
