## **macOS 10.14.4 Beta1, 2x Vega64**

**Beitrag von „ccoymo“ vom 13. Februar 2019, 08:30**

Hi, I have 2 x Vega 64 and am having the red H.264 problem, as well as slowness in FCP etc

Could someone please give me a sample SSDT used to fix this ? I tried to update mine, but it doesn't seem to work.
