Ruckeln und nach Neustart Fehlermeldungen Mojave

Beitrag von „Kundo“ vom 21. Februar 2019, 17:42

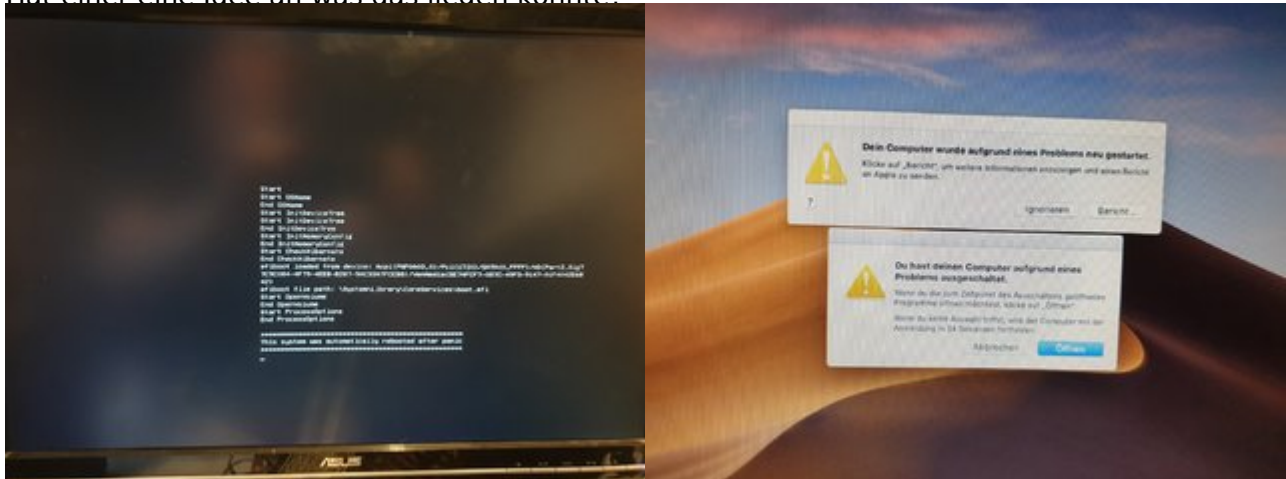

Hallo,

ich habe Mojave nun auf zwei PC's am Laufen und kann bei PC1 einfach den Fehler nicht ausmachen.

Ich hatte bei PC1 mit einer Intel Pentium G4560 CPU angefangen und diese nun durch eine i3 6100 ersetzt, Mojave dazu nochmals neu installiert und die Grafikkarten getauscht.

PC1 ruckelt bei allem was man macht und hat immer beim Re-order Neustart etwas mit CPU2 Caller..... zu nörgeln, PC2 dagegen läuft geschmeidig und hat keine ständige Panic beim Neustart.

Hat einer eine Idee an was das liegen könnte?
