# CPU Power Management / Clocks im Idle zu hoch

Beitrag von „g-force“ vom 22. Februar 2019, 08:57

Was sagt mir diese Fehlermeldung? Was muß ich verändern?

```
gumarschrotar ~ - bash -- 110x40
Last login: Fri Feb 22 08:38:42 on console
[Mac: gumarschrotar] $ sh -c "$(curl -fsSL https://raw.githubusercontent.com/steveshengshiq/one-key-cpufriend/master/one-key-cpufriend.sh)"
CPUFRIEND
Your board-id is Mac-889F31769980
