[SUCCESS?] LENOVO V130-15IKB (81HN)

Beitrag von „championriki“ vom 10. März 2019, 16:06

Used CLOVER UEFI + HotPatches

My Laptop Speceification:

- Intel Core i5-7200U Dual Core CPU (KabyLake)
- IGPU Intel HD 620 with HDMI output
- 8GB DDR4 - 2400MHz Ram
- 15,5" Full HD Display
- I2C Synaptics TouchPad with multi gestures (SYNA2B42)
- Ethernet Gigabit LAN (Realtek)
- Wireless + BT Intel Dual Band AC-3165 M.2
- 2xUSB ports 3.0
- SD Card Reader
- HDD SATA Seagate 1TB

Upgrades:

- Wireless + BT Broadcom BCM94352Z PN:Lenovo FRU:04x6020 (replace stock wireless M.2 card)
- WD BLACK 250gb NVME

What works:

- Intel HD 620 Graphics QE/CI
- USB 3.0 (both ports)
- Realtek Ethernet

- Audio (all inputs/outputs)
- Sleep and wake
- HDMI and HDMI audio (must connect hdmi cable TV-laptop before OS starts to get hdmi audio working)
- Dual Band Wireless (2,4/5Ghz)
- Bluetooth 4.0 LE
- Full Power Management (also after wakeup)
- Battery Status
- Brightness
- Fn Keys
- Precision Touchpad with all gestures
- Integrated Camera
- SD Card Reader

To keep working CPU Power Management after wakeup use the file "HWP_after_wakeup.zip" attached
