I removed bootflag and use inject 16 and

PciRoot(0x0)/Pci(0x1f,0x3) = layout-id 10000000 in properties ,

but I haven't sounds and microphone ! [MacPeet](#)

internal speaker no (doesn't in system list)

Hedephone no (doesn't in system list)

Microphone no (doesn't in system list)

MR [MacPeet](#) , MR [anonymous_writer](#) made kext for manage all of PCI device can you editing it and add audio id .(

SunrisePointHInjector.kext plugIns in it for pci device) (i'm using v of it with out layout-id and alc-layout-id , because it replace id of clover config)
