

# Clover Configurator immer aktuell

Beitrag von „al6042“ vom 9. April 2019, 19:40

Anbei die aktuelle Version 5.4.2.1, mit folgenden Änderungen:

## 5.4.2.1

- Fixed copy/paste functions

## 5.4.2.0

- Updated platformdata in SMBIOS section (includes new iMac 19,1 and 19,2 SMBIOS)
- Added Russian and Korean language (thanks to Владислав Потаенко and Chan Hoi. Kim)
- Updated Kexts Installer, now you can select a different build of NoVPAJpeg according to your Lilu version
- Fixes
- Improvements (right click for more information about your working file, added detailed explanation to each key)
