macOS Mojave Ozmosis BETA – OZ167X-XMAX

Beitrag von „nikoZ“ vom 16. April 2019, 19:01

Im sorry if im posting in the wron thread. Did someone managed to make HD4600 Desktop to boot with Mojave and Ozmosis? Im getting only "iGPU stall" with 0x0d220003, Whatevergreen, lilu latest versions and iMac 14,2 SMBIOS.
