Erledigt **Lenovo Thinkpad E580**

Beitrag von „notiflux" vom 1. Mai 2019, 14:06

dandepeched What fixed it for me (along with graphical glitches) was to spoof a Skylake iGPU with whatevergreen (you'll need whatevergreen from rehabman's repo from the spoof_fix2 branch, either build it yourself or find it precompiled online). Then use 0x19160000 as the ig-platform-id in clover
