HDMI audio in mac os mojave for ozmosis z 97 D3H

Beitrag von „nrchandar0100“ vom 7. Mai 2019, 10:24

Thanks a lot.

At present i use ozmosis Z 97 D3H XMAX rom well constructed by KUCKKUCK without any problem. my question is weather in the same rom i have to update the latest Kernext Patcher.plist alone or i have to update few other things also. i kindly request you to supply me mojave 10.14.4 enabled rom. i have attached my present rom.

Thanks
