HDMI audio in mac os mojave for ozmosis z 97 D3H

Beitrag von „nrchandar0100“ vom 9. Mai 2019, 08:45

Hi,

I went through your guide and downloaded the KernxtPatcher.plist ffs and efi. both way number 1 updating rom with KernxtPatch.ffs provided by you and in my second attempt i placed the kernxtPatcher.efi it is also provided by you.

i went through your macOS Mojave Ozmosis BETA -OZ167X-XMAX from there only i downloaded the required ffs files.

Thanks and Regards
