[Zitat von treblA](#)

Hi can somebody pls help me...i'm stuck at the MacOS Utilities when i click on install MacOS nothing happens, My mother board is Gigabyte Z390 M Gaming, Processor is i7 8700, my video card is Sapphire Pulse RX 580, my SSD is Sandisk SSD Plus 480GB Media, memory is Ballistic 2x8gb i download and used the EFI posted in this thread...

[treblA](#) If it helps, feel free to try my EFI, since I have almost the same hardware configuration as yours...

[macOS Mojave 10.14 Lauffähige Systeme \(EFI-Sammelthread\)](#)
