## **Lenovo Thinkpad E580**

**Beitrag von „dandepeched“ vom 2. August 2019, 10:39**

[Bombeiros](#) , I have Windows 10 installed and do not observe any problems with sound.

Check out my clover configuration - <https://github.com/dandepeched/Hackintosh-ThinkPad-E580>

Also for anyone interested, I replaced native Wi-Fi adapter with Broadcom BCM94352Z and it works fine.

The only problem I currently have is that Lid close and FN keys stop working after sleep (this is fixed after reboot).

Anyone have/resolved this problem?
