

# [Sammelthread] macOS Catalina 10.15 Dev-Beta Erfahrungen

Beitrag von „revunix“ vom 14. August 2019, 22:18

[derHackfan](#) Okay, dann warte ich noch etwas.

[Achilles31](#) Danke für's Feedback 😊

## Zitat von TRA

Bin dabei mit Clover 5033,

Der ist doch schon alt. Hier mal r5050.

- [r5050] Installing in the ESP will be as before r5000 (no package failure if the ESP is not found)
- [r5049] secure check for gradient present
- [r5048] text formatting
- [r5047] update chinese translation by Steve
- [r5046] Fix for ticket 519 (find the ESP on a Fusion drive with APFS containers)
- [r5045] exclude unused variable
- [r5044] exclude automatic save patched MADT
- [r5043] fixed permissions for espfinder
- [r5042] Update Dutch translation by ricoc90
- [r5041] take both uk and uk\_UA
- [r5040] Update Indonesian translation by Badruzeus
- [r5039] fix infinite loop
- [r5038] update ukrainian localization
- [r5037] fix PatchAPIC by Florin9doi
- [r5036] update PlatformFeature
