## **Hackintosh-Pro (Multi-CPU, etc.) Mainbord-Vorschlag? Machbar?**

**Beitrag von „Lucius Snow“ vom 5. September 2019, 15:13**

Hello DSM2. We are interested about the Dominus Extreme / W-3175X configuration on OS X. Would you share more details or write a tutorial?

Or do you build such configuration as a professional?

Thank you.
