

Erledigt

Startet nicht richtig, sierra download Problem

Beitrag von „max144“ vom 6. September 2019, 19:36

Soweit so gut. Ich habe mich jetzt von Mojave auf High Sierra aufgrund der besseren Nvidia Grafikkarten Kompatibilität um entschieden.

High Sierra runtergeladen, alles gut. Sobald ich jetzt den Stick bereit machen möchte, erhalte ich erneut Fehler. Ich habe nur den Anfang der log unten rein geschrieben, sonst wäre das viel zu lang geworden.

Code
