macOS Mojave Ozmosis BETA – OZ167X-XMAX

Beitrag von „kuckkuck“ vom 8. September 2019, 15:32

Which OS are you trying to install? Infos on how to update Ozm zu be Catalina compatible and information on how to solve the iGPU Freeze issue can be found here: [Ozmosis mit macOS Catalina 10.15 - OZ167X-XMAX \(extended\)](#)
