## **Verbindungsproblem**

**Beitrag von „DSM2“ vom 23. September 2019, 21:00**

@[jsassu20](#) : I don't know what you are talking about.

Yes, it can be tricky on Laptops but the DW 1820A works absolutely flawless on Desktop PCs.

Without any Yosemite Kexts or whatever, just an SSDT Edit and additional Kexts like AirportBrcmFixup.kext.
