Clover bootloader

Beitrag von „xzAtlas“ vom 6. Oktober 2019, 13:35

i used this tool as directed in the video

<https://www.insanelymac.com/fo...hfs-firmware-check-patch/>

I have been following this tutorial <https://youtu.be/VdRSYogDygs>

and up until the 7:20 mark its gone perfectly but in the menu where he's selecting the drive to install the clover bootloader, the newly made USB isn't appearing for me
