

OpenCore Bootloader aktuelle und ältere Versionen

Beitrag von „Noir0SX“ vom 8. Oktober 2019, 16:35

v0.5.1

- Added support of kernel resource kext injection
- Added support for 0.25% clock slowdown on Xeon Scalable CPUs (thx [@mrmiller](#))
- Replaced MatchKernel with MinKernel and MaxKernel
- Added Arguments to Tools and Entries sections
- Fixed broken timer for 300 series Intel chipsets
- Added Input section for mouse and keyboard aggregation
