Catalina: Stuck at apfs_module_

Hi,

Catalina Hackintosh to install on my

Laptop.....

catalina installations frist time process is done but

second process 10/12 min not proper install

I am trying many more time but result no luck ... not work for me apfs module & hfs + both slope catalina ...

my laptop

thinkpad t530

I7-3630QM

SSD 128GB
