

[SUCCESS] Gigabyte Z390 M Gaming + RX 580 Nitro+ [EFI im Anhang]

Beitrag von „sunilpiano1234“ vom 27. Oktober 2019, 09:42

my system

gigabyte Z390 M

i7 8700

gt710 graphics

copied your efi for 10.4.5 for my hackintosh 10.14.6 ..everything works fine..including usb stick in usb3..but external hard disks are not recognized in usb3 ..

my bios version is F4 ..

pls help me to update my bios and to recognize external hard disk in usb 3 port
